

EUROPEAN COMMISSION

## MEETING MINUTES

|                                                                     |                                                                                                                                                                                                            |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Date:</b>                                                        | <i>15/07/2026</i>                                                                                                                                                                                          |
| <b>Location:</b>                                                    | <i>Online meeting</i>                                                                                                                                                                                      |
| <b>Name(s) and function(s) of the Commission representative(s):</b> | <i>Christiane Kirketerp de Viron, Acting Director for Cybersecurity and Trust, DG CONNECT</i>                                                                                                              |
| <b>Name(s) of the interest representative(s):</b>                   | <i>FERMA</i>                                                                                                                                                                                               |
| <b>Subject matter:</b>                                              | <i>FERMA Gulliver Project</i>                                                                                                                                                                              |
| <b>Main points raised and positions expressed:</b>                  | <i>FERMA presented their Gulliver project - a contractual scheme that can help companies to manage cybersecurity risks and receive monetary compensation in case of a large-scale cybersecurity event.</i> |
| <b>Conclusions:</b>                                                 | <i>FERMA will share updates on the Gulliver Project in autumn 2026</i>                                                                                                                                     |
